Kirby McInerney and Co-Lead Counsel Susman Godfrey LLP secured a \$6.25 million classwide settlement on behalf of investors in Bristow Group Inc. securities. Plaintiffs alleged that Bristow, an aviation services provider focused on the oil and gas sector, made materially false and misleading statements to its investors about its internal controls related to compliance with important covenants in the company's secured financing agreements. On August 6, 2021, the federal district court overseeing the litigation granted final approval to the settlement.
